# YOUR FASCINATING FAMILY

GENEALOGY RESEARCH FROM YOUR LIVING ROOM

What stories would your ancestors tell if they were here today? You will be amazed to discover how simple it is to find information about them on the internet. Genealogy research is a lot easier in the digital age. No more microfiche searches. No more Soundex. No need to travel to Ellis Island or Salt Lake City. Learning about your family just requires a computer, an internet connection and knowing where to look.

Amateur genealogist Jackie Zev has been researching her family for over 20 years and has over 2000 people in her family tree. She has developed a set of tricks and websites that will help you find fascinating information about your relatives. Even if you are not interested in researching your own family, you will be amused and intrigued by her tales and information.

Feel free to bring your friends, your children (or grandchildren) and anyone who might be interested to this informative and fun meeting.
