

## Celebrating Tech Trek

We're starting off our program year with a celebration of **Tech Trek**, that wonderful STEM program that was developed by one of our CA members, Marie Wolbach, back in the late 90's. Over the past 18 years of its inception, Tech Trek has matriculated over 10,000 young girls—many of them well on their way to STEM careers.

You should feel proud of the support you have provided by contributing to Tech Trek through the years and one of the many benefits we reap is the opportunity to meet and hear from our Tech Trek campers each year. So be sure to join us in September for our Tech Trek luncheon featuring Jasmine Alas-Castillo from Walter Reed MS and Françoise Bate from Van Nuys MS. Along with the girls and their guests, we have invited the middle school counselors from both schools who are an integral part of this program.

You will be inspired by the stories these young women tell of their experience in this phenomenal AAUW program. Come hear how AAUW is making a difference in the lives of young women!
