

# OUR TECH TREK CAMPERS

Some good news to brighten your day! Our Tech Trek campers will be joining us in September for our annual Tech Trek luncheon. If your spirits need lifting, you won't want to miss meeting them and learning about their camp experiences, which you made possible.

This year, our dedicated Tech Trek committee selected four middle school students from Walter Reed: Katie Lager, Quinn Lewis, Emily Park and Grace Rhim.

Forensic science and Marine biology were big hits, and the students are excited to relate their experiences. As is our tradition, the students will be joined by their invited guests.

Get a preview of the campers' presentations by checking out their thank you notes on pages 4 and 5. By supporting these young women, you are making a down payment on the future of equity for women and girls. Thank you to all who support the Tech Trek program so generously.
